**Parent Handbook for Online Learning Program
Lower School Division
Grades 1 - 5
2020-2021 Academic Year**

Harbor Country Day School
Embracing the extraordinary in every child.™

Online Learning: Introduction

The goal of our online learning program is to provide students with the same academic rigor, intellectual engagement, and character development that students and families have come to expect from Harbor Country Day School (HCDS). The HCDS Online Learning Program allows students to successfully learn from home when necessary by providing engaging and interactive lessons that are designed to allow students to flourish academically and socially. Maintaining the student/teacher and student/student relationship(s) while learning online is the foundation of this program. We know that every interaction between teachers and students contributes to their success.

Harbor Country Day School believes it is critical to continue to inspire students to become independent, self-aware, and joyful members of our learning community. With these core values in mind, we will continue to provide a learning experience online that will allow students to feel comfortable taking risks, asking questions, and challenging themselves to go further than they ever thought possible.

On the following pages we have laid out guidelines for online learning should we be required to cease face-to-face learning and return to online learning due to COVID-19. We hope to transition seamlessly to online learning, if need be. Your reading through this handbook ahead of time will help allow for that transition for your child.

Online Learning: A Seamless Transition

At the start of the school year, each family will receive a schedule specific to their child's class. The schedule will go into effect if the school is closed due to an emergency that lasts for more than two days. This includes, but is not limited to, closure due to:

- A contagious outbreak
- A snowstorm (if wifi is available)
- Natural disaster (if wifi is available)

The online school will take place between the hours of 9:00 am and 3:00 pm. Teachers will also offer daily office hours for parents from 2:30 pm through 3:00 pm, by appointment.

Students will bring all necessary supplies home on the last day of in-person instruction.

Should we need to transition to online learning without warning, the school will organize a supply pick-up schedule.

Online Learning: Guidelines

To ensure a successful online learning experience:

1. Please check Google Classroom with your child daily. This site will keep students and parents up to date with assignments, schedules, and classroom announcements.
2. Please have a workspace set up for your child. The workspace should:
 - Be in a quiet area of the house and if possible free from siblings, pets, and toys
 - Have work, supplies, and materials organized and ready to access
3. Meals should be provided before or after a Zoom session.
 - Please try to avoid your child eating on screen.
4. During synchronous learning (ZOOM), students should be fully engaged with the teacher.
 - Parents should be close by to assist with technology *but* students should be working independently with the teacher and class.

Harbor Country Day School
Embracing the extraordinary in every child.™

Online Learning: Expectations and Etiquette

1. Students should log in on time and wait for the teacher to begin the session.
2. If the student will not be attending the Zoom Session please let the teacher know ahead for time, so the class is not waiting.
3. Students should keep their screens muted until the teacher instructs them to unmute.
4. Students should use the “chat” feature only to ask questions about the class, not for chatting with friends or sharing non class related comments.
5. Students should keep all toys and pets out of the screen view unless instructed by the teacher.
6. Students are expected to be sitting at a work space with their camera on and their face in full view.
7. To avoid talking over one another, students should raise their hand if they would like to speak.

Online Learning: Assignments and Class Communication

1. All lower school students, grades 1-5, will be given a gmail account that will provide parents access to the teacher's Google Classroom.
2. All assignments will be turned in through Google Classroom unless otherwise indicated.
3. Co-Curricular classes will also post assignments and Zoom links on Google Classroom.
4. Teachers will post the materials that are required for upcoming classes in advance so parents can help students prepare for the lesson.
5. Schedules, monthly newsletters, and other class specific announcements will be posted on Google Classroom.

Harbor Country Day School

Online Learning: Assessments

Student learning will be assessed in several ways during online learning which will include:

1. Daily observations of the teacher.
2. Small group instruction.
3. Post-assessments after academic lessons to ensure the students are retaining the content that is being taught virtually.
4. Tests, writing assignments, and projects administered through google forms and other platforms determined by individual teachers.
5. One to one appointments with classroom teachers to assess reading levels.

Online Learning: The Role of Parents

Parents play a critical role in students' online learning success. The goal of this program is to provide your student with a mostly synchronous learning experience that keeps them engaged and fosters independence and a sense of responsibility.

Parent Tips

1. Read over the Online Learning Guidelines as well as the Etiquette and Expectations sections with your child.
2. Please let the teacher know if your child is missing any materials.
3. Check Google Classroom daily.
4. Monitor your child and correct any behavior that does not display appropriate online etiquette.
5. If there are multiple learners in your household, try to separate each child or provide them with headphones to listen to their lesson.
6. Resolve any technical issues as soon as possible so your child can seamlessly transition to online learning.
7. Talk with your child daily about their online experience. Share any concerns or insights with the classroom teacher as soon as possible.
8. Charge devices necessary for online learning each night.
9. The teachers are here to support your children, if everyone follows the guidelines, children should be able to have a successful online learning experience.
10. Do your best, we are all in this together!

Online Learning: Building a Classroom Community

Building a classroom community is essential to the success of an online program. In order to connect and build a relationship with parents and students, we will be hosting some fun social events for Lower School students. Some examples of this will include:

- Class Lunches through Zoom
- Class Spirit Days
- All School Meeting
- Social and Emotional Learning (SEL) with Mrs. Decker.
- Hawks Nest Meeting place through Zoom.
- Buddies

Online Learning: Technology Checklist

Required:

- Desktop Computer with a camera, Chromebook, Macbook Laptop, Windows Laptop, or iPad.
- Internet access at home. If using WiFi be sure that you have a strong signal where your child/children will be working.
- An area for your child/children to work interruption-free.

These items that are not required but will help with the online learning experience:

- External monitor (second screen)
- Headphones or Earbuds
- Printer with a scanner

If you are in need of a laptop for your child/children please contact Artie Weissbach for a loaner at aweissbach@hcdsny.org.
