

Harbor Country Day School
Embracing the extraordinary in every child.™

**See what Parents have to say about
Online Learning at Harbor...**

There is so much uncertainty surrounding every ounce of “normal life” and in just a matter of days our world has been turned upside down.

Today, as the children began virtual learning, I was reminded Harbor is made up of dedicated, professional, and supportive teachers and staff.

Working alongside my son at the kitchen table, which we have transformed into our work-from-home space, I wanted to pass along kudos to the teachers for getting us through Day 1...

The teachers navigated this uncharted world of virtual learning with ease. They reassured the children together things would be worked out and, eventually, as the days go on it will get better.

Thank you to the entire Harbor Staff. Together we will get through this one day at a time.

5th Grade Parent

I wanted to let you know that the online classes are going great! My daughter loves them. I hear her in her room participating and it sounds like the class is all together. It really worked seamlessly. I had figured there was going to be some glitches but there doesn't seem to be any right now, fingers crossed! What a great alternative to regular school.

I just wanted to let you know that the kindergarten powerpoint for distance learning was excellent! It was well thought out, fun and just the right amount of work. I loved that it included the normal start to the day with the songs and routine. My son and I enjoyed doing the months of the year Macarena lol.

Great job with the 4th grade as well. You can tell that the teachers really put a lot of thought and work into it. My older son was working in his "office" with the door closed so I didn't get to spy on the session!

We are so lucky that you all put this in place most schools don't have any plans yet!
